

## PREZENTACE UCHAZEČŮ O STIPENDIUM 24. 6. 2019, UKB A11-205

### Uchazeči o studium

8:00 Zahájení a organizační informace

- 8:10 Šárka Špániková 408322 EKOL dr. Jan Divíšek Distribution and ecology of European habitats
- 8:25 Tereza Cahová 437181 BOTA dr. Barbora Chattová Global diversity of soil diatoms
- 8:40 Kateřina Knotková BOTA doc. Jakub Těšitel Positive effects of hemiparasitic plants on biodiversity and ecosystem services
- 8:55 Kryštof Horák 436918 ZOO doc. Tomáš Albrecht Ptilochronological characteristics and feather quality analysis within the latitudinal gradient in songbirds
- 9:10 Anna Moravcová ZOO prof. Stano Pekár Efficiency of inaccurate Batesian mimicry
- 9:25 Domagoj Gajski 479138 ZOO prof. Stano Pekár Investigating invertebrate trophic interactions by means of molecular methods
- 9:40 Tadeáš Nečas 437289 ZOO dr. Václav Gvoždík Diversity and systematics of Central African anurans (Phrynobatrachus and Afrobatrachia)
- 9:55 František Snítílý 423995 ZOO dr. Václav Gvoždík Systematics and taxonomy of squeaker frogs (Arthroleptis) from Central Africa
- 10:10 Bethan Mason 491704 PARA dr. Klára Petrželková Epidemiology of helminth infections in great apes with emphasis on mountain gorillas in Virunga Massif in Rwanda
- 10:25 Radovan Coufal EKOL prof. Michal Horsák Threats for European fen molluscs with an attention to glacial relicts
- 10:40 Neira Dedic PARA prof. Andrea Šimková Vetešníková Genetic disruption in the interspecific hybrids of cyprinid fish: the impact on expression of immune genes and susceptibility to parasites

### Studenti 1. ročníku

- 11:15 Tomáš Němec 422930 EKOL prof. Michal Horsák The role of land snails in food chains
- 11:30 Malahatc Dianat 490619 ZOO dr. Adam Konečný Evolution of old placental lineages: insectivorous mammals in the Afrotropics
- 11:45 Alena Dostálová 423307 HYBI dr. Petr Pařil Effect of changes in natural and anthropogenic environmental factors on survival of aquatic macroinvertebrates in intermittent streams
- 12:00 Daniela Mizerovská 408284 ZOO doc. Josef Bryja Evolution at steep elevational gradients: assessing the role of genetic and ecological factors in speciation process
- 12:15 Jan Petružela 376076 PARA dr. Joëlle Gouÿ de Bellocq Host-parasite secondary contacts: barriers and introgression
- 12:30 Markéta Harazim 478983 ZOO Dr. Natália Martínková Physiology and pathology of infection in bats
