

PREZENTACE UHAZEČŮ O STIPENDIUM 14. 7. 2020, UKB A11-205

Uchazeči o studium

8:00 Zahájení a organizační informace

1.	8:10	Farshad Nejat	Pashaki	Írán	PARA	prof. Andrea Vetešníková Šimková	Host-specific parasites revealing historical and contemporary contacts of fish hosts: role of the Middle East in the biogeography of cyprinoids
2.	8:25	Mehedi Hasan	Fuad	Bangladéš/ Německo	PARA	prof. Andrea Vetešníková Šimková	Evolutionary mechanisms facilitating the coexistence of asexual and sexual forms of gibel carp (<i>Carassius gibelio</i>), invasive species in Europe
3.	8:40	Sajjad	Ghodrati	Írán	PARA	prof. David Modrý	Comparative ecology of ticks and tick-borne pathogens in Central European ecosystems
4.	8:55	Getachew	Mulualem	Etiopie	ZOOL	doc. Josef Bryja	Evolution of rodent biodiversity in Eastern Afrotropical biodiversity hot-spot
5.	9:10	Lucia	Anettová		PARA	prof. David Modrý	Biology and ecology of zoonotic parasitic nematode <i>Angiostrongylus cantonensis</i> , cause of meningitis in animals and humans
6.	9:25	Pavla	Zíková	436881	ZOOL	Jaroslav Piálek, CSc.	Genetic correlates of hybrid male sterility in the European house mouse
7.	9:40	Vladislav	Ilík	451795	PARA	Mgr. Barbora Pafčo, Ph.D.	Whole genome and amplicon sequencing as a tool for studying strongylid nematodes
8.	9:55	Eva	Jiroušová		PARA	prof. David Modrý	Molecular epidemiology of GI nematodes shared among humans, primates and domestic reservoir hosts
Přestávka 10 min.							
9.	10:20	Selma	de Donnová	451725	HYBI	Mgr. Jindřiška Bojková, Ph.D.	Long-term macroinvertebrate responses to anthropogenic disturbances: the effects of pollution, habitat modification, and climate change
10.	10:35	Alžbeta	Devánová	437390	HYBI	prof. Michal Horskák	Ecological and historical determinants of large branchiopod distribution in the Pannonian Region
11.	10:50	Marek	Hučín		EKOL	doc. Jiří Schlaghamerský	Saproxyllic beetle assemblages in game preserves - the effect of game keeping on species of conservation importance
12.	11:05	Barbora	Winterová	423852	EKOL	doc. Jeffrey Clark Nekola	The role of ecological barriers in biodiversity, community ecology and macroecology
13.	11:20	Monika	Kolényová	424056	BOTA	doc. Michal Tomšovský	Microhabitats of lignicolous fungi

Přestávka 1 hod.

Studenti 1. ročníku

1.	12:35	Šárka	Špániková	408322	EKOL	dr. Jan Divíšek	Distribution and ecology of European habitats
2.	12:50	Tereza	Cahová	437181	BOTA	dr. Barbora Chattová	Global diversity of soil diatoms
3.	13:05	Kateřina	Knotková	501016	BOTA	doc. Jakub Těšitel	Positive effects of hemiparasitic plants on biodiversity and ecosystem services
4.	13:20	Kryštof	Horák	436918	ZOOL	doc. Tomáš Albrecht	Ptilochronological characteristics and feather quality analysis within the latitudinal gradient in
5.	13:35	Domagoj	Gajski	479138	ZOOL	prof. Stano Pekár	Investigating invertebrate trophic interactions by means of molecular methods
6.	13:50	Tadeáš	Nečas	437289	ZOOL	dr. Václav Gvoždík	Diversity and systematics of Central African anurans (Phrynobatrachus and Afrobatrachia)
7.	14:05	Bethan	Mason	491704	PARA	dr. Klára Petrželková	Epidemiology of helminth infections in great apes with emphasis on mountain gorillas in Virunga Massif in Rwanda
8.	14:20	Radovan	Coufal	241288	EKOL	prof. Michal Horsák	Threats for European fen molluscs with an attention to glacial relicts
9.	14:35	Neira	Dedic	243742	PARA	prof. Andrea Vetešníková Šimková	Genetic disruption in the interspecific hybrids of cyprinid fish: the impact on expression of immune genes and susceptibility to parasites
