

PREZENTACE UCHAZEČŮ O STIPENDIUM 14. 7. 2021, UKB B11-306

UCHAZEČI A PŘIJATI DO 1. ROČNÍKU

8:00 Zahájení a organizační informace

1.	8:10	Ashini Dias	Srí Lanka	prof. Petr Bureš	Self-compatibility and loss of heterozygosity in <i>Cirsium</i>	BOTA
2.	8:25	Abhishek Nair Anil Kumar Nair	Indie	prof. Martin Reichard	Behavioural, ecological and physiological aspects of bitterling-mussel coevolution	EKOL
3.	8:40	Shubra Sau	Indie	doc. Natália Martínková	Persistence of colour polymorphism in sand lizards	ZOOL
4.	8:55	Nathan Viel	Francie	prof. Stano Pekár	Adaptive phenotypic changes in range-expanding spiders	EKOL
5.	9:10	Joshua And Erkelenz	Německo	doc. Zdeňka Lososová	Determinants of phylogenetic and functional diversity of plant communities	BOTA
6.	9:25	Gonzalo Velasco	Španělsko	doc. Zdeňka Lososová	Determinants of phylogenetic and functional diversity of plant communities	BOTA
7.	9:40	Nina Fahs	Německo	doc. Jakub Těšitel	The ecology of nitrogen-fixing legumes, parasitic plants and their interaction: from pot experiments to continental-scale syntheses	BOTA
Přestávka 10 min.						
8.	10:05	Getachew Mulualem	516365 Etiopie	prof. Josef Bryja	Evolution of rodent biodiversity in Eastern Afrotropical biodiversity hot-spot	ZOOL
9.	10:20	Narmin Beydizada	490411 Ázerbajdžán	prof. Stano Pekár	The role of personality in solitary spiders in different contexts	ZOOL
10.	10:35	Robert Míč	392384 PARA	dr. Mária Seifertová	Diversity and phylogeny of crustacean ectoparasites (Crustacea: Copepoda) of freshwater fishes of the Old World	PARA
11.	10:50	Lucie Seidlová	447756 PARA	prof. Andrea Vetešníková Šimková	The role of host specificity and complexity of life cycle in the structuring of parasite populations	PARA
12.	11:05	Anna Šípková	PARA	prof. David Modrý	Invasive and alien mammals as a source of exotic pathogens	PARA
13.	11:20	Michal Hnilička	459683 ZOOL	dr. Pavel Jurajda	The impact of invasive alien fish species on native fish communities	ZOOL
14.	11:35	Matouš Janča	423267 ZOOL	dr. Oldřich Tomášek	Ecology of free fatty acids and associated physiological mechanisms in avian blood	ZOOL

Přestávka 1 hod.

STUDENTI 1. ROČNÍKU

1.	12:50	Barbora Winterová	423852 EKOL	doc. Jeffrey Clark Nekola	The role of ecological barriers in biodiversity, community ecology and macroecology	EKOL
2.	13:05	Alžbeta Devánová	437390 HYBI	prof. Michal Horskák	Ecological and historical determinants of large branchiopod distribution in the Pannonian Region	HYBI
3.	13:20	Selma de Donnová	451725 HYBI	Mgr. Jindřiška Bojková, Ph.D.	Long-term macroinvertebrate responses to anthropogenic disturbances: the effects of pollution, habitat modification, and climate change	HYBI
4.	13:35	Eva Jiroušová	514004 PARA	prof. David Modrý	Molecular epidemiology of GI nematodes shared among humans, primates and domestic reservoir hosts	
5.	13:50	Pavla Klusáčková	436881 ZOOL	Jaroslav Piálek, CSc.	Genetic correlates of hybrid male sterility in the European house mouse	ZOOL
6.	14:05	Sajjad Ghodrati	517217 PARA	prof. David Modrý	Comparative ecology of ticks and tick-borne pathogens in Central European ecosystems	PARA
7.	14:20	Mehedi Hasan Fuad	516520 PARA	prof. Andrea Vetešníková Šimková	Evolutionary mechanisms facilitating the coexistence of asexual and sexual forms of gibel carp (<i>Carassius gibelio</i>), invasive species in Europe	PARA
8.	14:35	Lucia Anettová	514002 PARA	prof. David Modrý	Biology and ecology of zoonotic parasitic nematode <i>Angiostrongylus cantonensis</i> , cause of meningitis in animals and humans	PARA
9.	14:50	Monika Kolényová	424056 BOTA	doc. Michal Tomšovský	Microhabitats of lignicolous fungi	BOTA
10.	15:05	Vladislav Ilík	451795 PARA	Mgr. Barbora Pafčo, Ph.D.	Whole genome and amplicon sequencing as a tool for studying strongylid nematodes	PARA
