

PREZENTACE UCHAZEČŮ O STIPENDIUM 23. 6. 2022, UKB B17-432

UCHAZEČI A PŘIJATI DO 1. ROČNÍKU

8:00 Zahájení a organizační informace

1.	8:10	Barbora Klímová	470403 EKOL	dr. Irena Axmanová	Factors affecting the accuracy of geographical models of plant distribution and species richness
2.	8:25	Klára Klinkovská	474368 BOTA	prof. Milan Chytrý	Changes in non-forest vegetation of the Czech Republic
3.	8:40	Klára Plačková	460385 BOTA	prof. Petr Bureš	Evolutionary consequences of chromosomal holocentrism
4.	8:55	Daniel Szokala	512772 BOTA	doc. Zdeňka Lososová	Alpine and subalpine vegetation in South-eastern Europe, Anatolia, and the Caucasus
5.	9:10	Vladimír Šoltysová	473988 ZOOL	prof. Stano Pekár	Selective attention of ant-eating spiders

Přestávka 15 min.

STUDENTI 1. ROČNÍKU

1.	9:40	Ashini Di Mahadura	530815 BOTA	prof. Petr Bureš	Self-compatibility and loss of heterozygosity in <i>Cirsium</i>
2.	9:55	Matouš Janča	423267 ZOOL	dr. Oldřich Tomášek	Ecology of free fatty acids and associated physiological mechanisms in avian blood
3.	10:10	Shubra Sau	517717 ZOOL	doc. Natália Martínková	Persistence of colour polymorphism in sand lizards
4.	10:25	Nathan Viel	529682 EKOL	prof. Stano Pekár	Adaptive phenotypic changes in range-expanding spiders
5.	10:40	Joshua Al Erkelenz	528856 BOTA	doc. Zdeňka Lososová	Functional diversity across Europe
6.	10:55	Gonzalo Velasco	528870 BOTA	doc. Zdeňka Lososová	Evolutionary determinants of disconnected phylogenetic and functional diversity in European plant communities
7.	11:10	Nina Fahs	528656 BOTA	doc. Jakub Těšitel	The ecology of nitrogen-fixing legumes, parasitic plants and their interaction: from pot experiments to continental-scale syntheses

Přestávka 1 hod.

8.	12:25	Farshad Nejat Pashaki	517718 PARA	prof. Andrea Vetešníková Šimková	Host-specific parasites revealing historical and contemporary contacts of fish hosts: role of the Middle East in the biogeography of cyprinoids
9.	12:40	Narmin Beydizada	490411 ZOOL	prof. Stano Pekár	The role of personality in solitary spiders in different contexts
10.	12:55	Robert Míč	392384 PARA	dr. Mária Seifertová	Diversity and phylogeny of crustacean ectoparasites (Crustacea: Copepoda) of freshwater fishes of the Old World
11.	13:10	Lucie Seidlová	447756 PARA	prof. Andrea Vetešníková Šimková	The role of host specificity and complexity of life cycle in the structuring of parasite populations
12.	13:25	Anna Šipková	528194 PARA	prof. David Modrý	Invasive and alien mammals as a source of exotic pathogens
