We invite you to the Zoological seminar

Presentation of dissertation topics

Ivna Azinović: Trajectories of aquatic macroinvertebrate communities in Central Europe under increasing flow intermittence and the contribution of persisting aquatic refuges to community recovery

Viktória Bitušíková: Evolutionary and ecological genomics of nematode parasites circulating among humans, animals, and the environment: Necator and Strongyloides as model cases of global importance

Anne-Lise Blondeau: Metabolic energy substrates in avian blood: hormonal regulation, impact on fitness, and role in life history evolution

Kateřina Velecká: Diversity and ecology of bats in urban ecosystem

"An excellent defense. Let's give her the doctorate."

17 September 2026, 1 p. m.

Room B11/306, University Campus Bohunice,
Kamenice 5, Brno-Bohunice
